

Athletic Training Summer Camp

The Summer Athletic Training Camp at NAU allows high school students to experience what it is like to be an Athletic Trainer in the exciting field of Sports Medicine. Basic skills necessary to function in a high level athletic training room will be introduced and practiced.

SUMMER ATHLETIC TRAINING CAMP

JUNE 5-7, 2009

Welcome to the 3rd annual Northern Arizona University Athletic Training Education Program Camp for High School students! The purpose of this camp is to assist in the advancement of the high school athletic training student's knowledge and skill base. Numerous Certified Athletic Trainers from Flagstaff and around the state will be participating as camp supervisors and instructors during the 3-day camp. From Friday evening through Sunday afternoon, the student will experience everything from instructional sessions to practical skill sessions to team building and competitions. Back again this year is our Advanced Educational Track. This track is geared for those students who already have a basic background and understanding of athletic training or those who have spent at least 1 year as an athletic training student. We encourage those who attended last year's camp to sign up for the advanced educational track. The focus for the camp is to build passion and motivation in high school students around the state for careers in Athletic Training. Please join us for this exciting weekend!

Debbie Craig, PhD, ATC, LAT
ATEP Program Director
Northern Arizona University
