

Students, your instructor wants you to be aware of a low-cost, green alternative for your print textbook. Read on...

## Why eBooks?

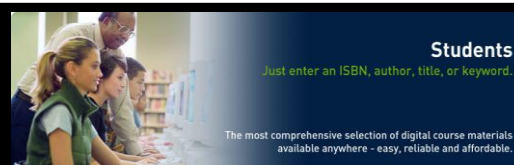

Approx. **half the price** of traditional print books.

No need for YOU to carry a heavy book.

**A GREEN Alternative:**  
Save money while helping the environment!

- **Economical** eBooks are approximately 50% the cost of a traditional print textbook.
- **Convenient** eBooks are available as digital downloads or in an online-viewing format.
- **Searchable** Powerful search engine to scan your eBook for specific content.
- **Customizable** Highlight text & write study notes.
- **Print** what you need.
- **Try** an eBook before you buy it.
