

Testimonial from NAU-Yuma Community Counseling program student, 2006:

“...Having this program in Yuma has presented me with a great opportunity. The instructors are all very knowledgeable in a wide variety of subject areas. This gives us, the students, a range of ideas from different perspectives and theoretical backgrounds to better prepare us for our future jobs as counselors in dealing with the many issues that may present themselves. I feel that I have received ample supervision and constructive feedback throughout the process, which has continued now into my internship, and this has allowed me to improve my skills and feel confident and successful in this career.”

Thank you,
